## ABOUT HANS

Business is my business. What makes me different from other consultants and coaches is that over the last 32 years I have been a business owner of 40 different businesses in different industries. As a Business Consultant, Coach, and business owner, I have vast knowledge and experience in the Retail, Wholesale, Manufacturing, Services, Distribution, Online, and Training industries.

I'm sure you can imagine, after 40 businesses, I have succeeded and failed more times than most. That's why I truly understand business owners' frustrations, problems, fears, dreams, and challenges, probably better than anybody else, and know what really works and what it takes.

I sincerely love helping and sharing my 32+ years of experience as a business owner, coach & consultant with entrepreneurs and want to help them create true financial health, wealth, and freedom.

"It's Not just about growing, improving, or the turnaround of your business to me. Your success or failure in your business over the next few weeks, months, and years will determine and affect the rest of your life. It's about your livelihood, your future, and the future of your family" for me"

Not to brag, but to merely demonstrate my passion & commitment to the development of small businesses, I have been an author and speaker, coach, and the founder and publisher of the first "business magazine" in SA. I also developed the first South African "small business coaching" program and have been reviewed by all the business magazines in South Africa, including SABC for the development of business coaching and helping South African business owners.
